Intelligence Forum: (See my Diary Notes dated 28 January 1971.)
I raised with Colonel White the question of whether participation in the Intelligence Forum should be considered an outside activity in Agency terms and therefore required approval. I noted that this seemed a bit contrary to the attitude which had been expressed but that we had a specific name which had been surfaced to the Office of Security, namely [REDACTED] Colonel White reviewed some of the background and then expressed the opinion that we should not acquire outside activity formalities since that could be interpreted as an Agency policy level attempt to kill the organization. Mr. Osborn was present during this discussion and took back with him the paper which he had prepared on [REDACTED] and the forum.
